Value 2k Policy

Welcome

We would like to offer you a warm welcome as a member of ManyPets and a big thank you for buying your pet insurance from us.

We have designed our policies and customer service to be honest, friendly and easy to deal with. So whether you have any questions, compliments, problems or even complaints, we want to hear about them.

Policy documents can be a bit of a chore so we've tried to remove any jargon and confusing language to make it easy to understand.

ManyPets aims to pay every valid claim we receive.

To make that happen we recommend you take a few minutes to read through the relevant sections of your policy wording.

It will help you understand what you are entitled to and make sure your claim is accepted. We exist to change insurance for the better.

We created our pet cover by listening to the needs, frustrations and suggestions of our members. They told us what was missing from existing policies, or what didn't work well.

If you have anything you would like to add to help shape future policies, or if there is anything you don't understand, we would love to hear from you.

1. Your Value 2k policy

This document contains the details of the insurance you have bought. It contains the cover options you selected when buying your insurance and explains in detail what the insurance does and does not cover.

This policy meets the demands and needs of individuals who require cover for new and recurring conditions with a £2,000.00 limit that you can claim each year you renew.

We will use this document when deciding whether to pay a claim so if anything does not look right, let us know as soon as possible.

Your policy starts on 01/07/2024 and will run for 12 months. At renewal, we may offer you a further 12 months cover. If we do not offer an invitation to renew, we will let you know you and explain why. Where we have offered renewal, we may change the terms and conditions. This includes excesses, co-payment, third party liability cover and other terms within this document. Your policy will renew automatically unless you tell us to stop the policy. We do this to make sure there are no gaps in your cover. We will contact you by email before renewal to remind you about this.

You must tell us as soon as possible if your or your pet's details are wrong or change at any point. For example, you move home, your pet was spayed or neutered, or your pet's age is incorrect.

If your situation changes this may affect your premiums. We will let you know when you contact us or update your details via the My Account on the ManyPets website.

3. What we are not able to cover

3. What we are not able to cover

The following conditions apply to you before you buy this policy and throughout the life of your policy.

Waiting periods when you first buy

- The waiting periods below don't apply if:
 - Your pet was insured by another insurer for a minimum of 12 continuous months up to the date this policy starts. If this is the case, we'll ask you to give us details of your previous insurance to confirm there was no gap in cover.
 - You are renewing your existing ManyPets policy.
- We're not able to pay a claim for any accident that occurs or is treated within in the first 48 hours of the policy.
- We're not able to pay a claim if your pet passes away due to illness in the first 14 days of the policy.
- We're not able to pay claims for any vet's fees incurred due to illness within the first 14 days of the policy.
- Conditions that occur within the waiting period will be considered pre-existing until your pet has been on cover for 12 months, or after the first renewal, whichever is later.
- We're not able to pay for bilateral conditions in the first 12 months of the policy if the condition received treatment in the 24 months before your policy starts. We're unable to waive the waiting period even if you switch without a gap in cover.
- We're not able to pay claims if your pet suffers from complications during the first pregnancy within the first 6 months of the policy. We're unable to waive the waiting period even if you switch without a gap in cover.
- These periods also apply to a pet when it is added to the policy.

Submitting claims too late

We are not able to pay claims if you make them more than six months after each date of treatment.

Claims covered by other insurance policies

If you make a claim that is also covered by another insurance policy, you will need to provide details of the other insurance policy. We will only pay our share of the claim. You'll need to let us know if you are covered under another insurance policy when you make a claim. And if we ask, provide details of your other insurance policy.

We are not able to pay any legal claims against you or your pet that are insured by another policy.

Experimental or unproven treatment

- We are not able to cover treatments where:
 - there is no wide body of evidence on the effectiveness of the treatment
 - there is no consensus among the veterinary community on the effectiveness of the treatment, or

Where we believe the treatment is excessive, we may ask for a second opinion. If we ask for a second opinion, we'll pay for it.

You're unable to provide evidence

We will not be able to cover a claim if you're unable to provide evidence that your claim meets the terms and conditions of your policy. For example, medical history, receipt and/or invoices.

If you don't have relevant medical history and we suspect that your pet's medical condition is pre-existing. In that case, we'll decline your claim if:

- You told your vet or any other staff member that the previous owner or charity confirmed medical history;
- You told us the previous owner or charity told you about medical history; or
- We've concluded that signs or symptoms would have been visible based on the severity and progression of the medical condition.

Animals we are not able to cover

4. How your Value 2k policy works

4. How your Value 2k policy works

Yearly limit

How this policy works for vet fees

We will pay up to £2,000.00 for all vet's fees in any one year. This means there is no limit according to the number of claims you make or the number of conditions your pet suffers. Instead, claims will be paid until the £2,000.00 limit is reached that year.

Your Vet Fee cover is inclusive of the limits below:

- £500.00 for complementary treatments.
- £200 for food prescribed by a vet to treat a specific illness or injury

When you renew your policy, the limit is reset so there is a new £2,000.00 to use again if it is needed. This is the case even if you made claims the year before. This means that valid claims can continue across years, as long as the limit is not reached.

How this policy works for other claims

All other claims have their own specific limits on the maximum amount we will pay out in any one policy year, but no time limit. These limits are shown in each section in the rest of this document.

5. Your cover

5. Your cover

5.1 Cover if your pet needs medical treatment

Unfortunately, your pet may fall ill or be injured and need treatment by a medical professional. This part of our cover helps you to pay for such bills.

Important things you should be aware of

- Pre-existing conditions are a common cause of claims being turned down in this section. A pre-existing condition is anything that shows signs or symptoms or received treatment, medication or advice before or during the waiting period. We cover these conditions after the waiting period, as long as 24 months have passed since they last received treatment, medication or advice. We consider advice to include anything a vet observed and recorded in your pet's clinical history. Once we cover a pre-existing condition, we will continue to cover it as long as you renew your policy each year.

For example, Molly suffered from pancreatitis 20 months before her policy started. 5 months after her policy started, Molly needed treatment for pancreatitis. We can cover the condition because Molly didn't receive any treatment, medication or advice for more than 24 months.

Any conditions that first occur after the waiting period are never treated as pre-existing as long as you renew your policy with ManyPets each year.

We'll cover pre-existing conditions due to untreated signs or symptoms, or a waiting period, if treatment takes place after your pet has been on cover for 12 months. Or after the first renewal, whichever is later.

For example, Monty started limping 1 month before his policy started. During this time, Monty didn't receive any treatment, medication, or advice for the condition (in this case, his condition is the signs or symptoms). 1 month after Monty's policy started, he needed treatment for his condition. Since his condition started before the policy started, we can't cover it or anything directly related to the signs or symptoms. We can cover treatment for the

condition and anything related to it if the treatment takes place after your pet has been on cover for 12 months. Or after the first renewal, whichever is later.

- You must ensure that your pet has its annual check-up, a dental check-up every 12 months, and vaccinations so they remain healthy. If you don't, then claims will be rejected.

Your limits

The most we can pay for medical treatment and related costs is £2,000.00 per year. This is inclusive of the limits below:

- The most we can pay for complementary treatments is £500.00 per year.
- The most we can pay for any food prescribed by a vet to treat a specific illness or injury is £200.00 per year.

Your excess

- You will need to pay your excess once a year.
- We will not pay claims that are below your excess.
- At the first renewal after your pet's 9th birthday you will have to pay 20% of the remaining claim after you've paid your excess.

The amount you pay depends on your policy, the options you have chosen and your pet's age. Your excesses are:

Pet name	Age category	Your excess
Fluffy	Under 9	£69.00 per year + 0% of claims

What we will pay for

Veterinary treatment

- ✓ If a vet recommends treatment for your pet, we will pay the cost of that treatment.

The treatment must be carried out by a vet, a veterinary nurse or by someone else supervised by a vet.

✗ We will not pay for medical conditions or complications related to breeding or pregnancies.

Conditions that can affect both sides of the body (also known as bilateral conditions)

✓ We'll cover treatment for the following conditions, on both sides of the body, if your pet never suffered from them before your policy starts:

- Hip and elbow dysplasia
- Luxating patella
- Cruciate ligament damage
- Otitis
- Cherry eye
- Entropion

✗ We're unable to cover bilateral conditions in the first 12 months of your policy if they received treatment in the 24 months before your policy starts. A 12-month waiting period only applies to specific conditions listed above that were treated in the 24 months before your policy starts.

✗ We're not able to pay claims for the conditions listed above if your pet has had treatment in the 24 months before your policy starts. The condition treated on that side of the body will be considered pre-existing. However, the same condition on other limbs or other side of the body will be covered if treatment takes place after the first renewal. In other words, after completing a 12-month waiting period.

Behavioural treatments

✓ We will pay for behavioural treatment if your pet was referred to a behavioural specialist by a vet.

Your pet's behavioural condition must be treated by someone who is a member of an organisation in our list.

For a list of organisations please see: <https://manypets.com/uk/behavioural-treatment/>

- ✗ We will not pay for behavioural treatment if there hasn't been a change to the normal behaviour of your pet caused by mental or emotional state as a result of injury or illness.

Complementary treatment

- ✓ If your pet is diagnosed as needing hydrotherapy, homeopathic and herbal medicines, acupuncture, physiotherapy, osteopathy or laser therapy, we will pay up to £500.00.

Complementary treatments must be carried out by a vet or someone who is a member of an organisation in our list. For a list of organisations please see: <https://manypets.com/uk/complementary-treatment>

Advanced treatments

- ✗ We will not pay for stem-cell treatment, gene therapy, transplant surgery with necessary pre- and post-operative care, and prosthesis.

Food

- ✓ We will pay the cost of food prescribed by your vet to treat a specific illness or injury up to the prescription food limit.

Complications

- ✓ If there is a complication during routine treatment, we will pay for any treatment caused by that complication.
- ✗ We will not pay for any complications that may arise out of treatments that were not prescribed.

Emergencies

- ✓ If your pet suffers from a medical emergency, we will pay out-of-hours costs.
- ✓ If your pet suffers from a medical emergency, or if moving your pet would endanger it, we will pay for house calls by a vet.

ManyPets

- ✗ We will not pay out-of-hours fees if your pet isn't suffering from a medical emergency.
- ✗ We will not pay house calls by the vet if your pet can be treated at the surgery without being put at risk or danger.

Pregnancy

- ✗ We will not pay costs relating to pregnancy.

Dental

- ✓ We will pay for dental treatments prescribed by your vet due to an accident.
- ✓ We will pay for crowns only if needed due to an accident.
- ✗ We will not pay for dental treatments unless they are caused by an accident.
- ✗ We will not pay for routine scale and polish or crowns or anything that could have been prevented by an annual dental check up. This is important because regular check ups can help stop small problems turning into more complicated issues later.
- ✗ We will not pay for dental treatments where you have not followed the recommended treatment within 6 months.

Routine treatments or treatments that have not been prescribed

- ✗ We will not pay for any routine or preventative healthcare, for example, vaccinations, tick, worming and flea treatments, grooming and nailcare, spaying and neutering.
- ✗ We will not pay for any treatments you choose that have not been prescribed by a vet.
- ✗ We will not pay for any Vitamins, minerals, and supplements that can be purchased over the counter that your vet didn't prescribe as part of a treatment for a medical condition.

Pre-existing conditions

✗ We will not pay for any costs relating to pre-existing conditions.

Pheromone treatments

✗ Pheromones are a chemical compound, produced and secreted by an animal. They affect the behavior and development of other animals of the same species. We will not pay for costs of any pheromone treatments, unless they are prescribed by a vet to treat a behavioural condition.

5.2 Cover for legal claims against you and your pet

This section helps with any compensation and legal costs if someone brings legal action against you and/or your pet (also known as third party liability cover). For example, if your pet caused an injury to someone or damaged their property.

At renewal we may remove your Legal Claims Against You Cover if:

- your dog is aggressive or has aggressive tendencies
- your dog has bitten or attacked anyone or any animal, or
- we've classed your dog's breed as high risk.

We'll let you know if we remove your Legal Claims Against You Cover when we send your renewal invite. If we've removed your third party liability cover, we won't cover claims against you or your pet

Important things you should be aware of

Legal action and costs can be complex and difficult. If you find yourself in a legal dispute, or you think you might come into a dispute, we need to know as soon as possible so we can help. We will appoint lawyers to work on your behalf to resolve or prevent the dispute as appropriate.

If you appoint your own lawyer to deal with a dispute we may not be able to pay the costs. Note that this cover only applies for dogs.

Your limits and excess

The most we can pay for a legal claim is £1,000,000.00 per incident. You will need to pay your £250.00 excess for each legal claim.

What we will pay for

Legal action and compensation due

- ✓ If legal action is taken for an incident relating to your pet, we will pay the cost of lawyers, that we appoint, to defend you.
- ✓ If that legal action against you is successful, we will pay the settlement amounts or damages awarded, unless any laws, rules or regulations have been broken.
- ✗ We don't pay legal claims while your dog is in the care of someone receiving payment or free accommodation.
